SUMMARY

I am a Motivated Web Developer with a 3 years of experience in HTML, CSS and JavaScript and a 2 years experience in back-end website development using Node.js. I have an extensive knowledge of web development, design, and coding, as well as experience in a wide range of programming languages, frameworks, and tools. Proven success in developing and deploying applications, websites, and web services. Highly organized and detail-oriented, with a knack for finding creative solutions to challenging problems.

Results-driven Web Developer that develops cutting-edge websites and web applications using HTML, CSS, JAVASCRIPT, NODE.js and other web technologies. Skilled at developing custom solutions to fit client needs while delivering high-quality products on time and under budget.

EXPERIENCE

Web Developer Intern

09/2022 - 04/2023

[ElabsAfrica](#)

Rivers State, Port
Harcourt

Elabsafrica is a digital agency of experts focused on connecting product design and web development to creativity and innovation to provide value for businesses and users.

- Designed website layouts and user interface according to client specifications.
- Troubleshoot existing web applications to identify technical issues and provide solutions
- Conducted usability tests on new features of the website to ensure quality assurance standards are met.
- Collaborated with team members to develop efficient cross-browser compatible webpages.
- Created clean, well-documented custom code and updates.

TRAINING / COURSES

[Fullstack web development](#)

OB

STRENGTHS

💎 Frontend developer

Attended a Website development institution where I learnt about a frontend website developer and how to create a user friendly interface

★ Back-end web developer

In the world of technology I can use my back-end knowledge to build, maintain and manage the implementation process of data used in performing actions on websites

💎 Node.js Knowledge

I acquired my Node.js development strength through a website development institution. I can use Node.js to create server-side web applications for organizations and firms.

💎 Responsive Web design

Acquired this knowledge through a tech institution and online research.
